A year is 365 days, 366-day year basis for leap year
The deposit can be attracted also through Online Banking or Mobile Banking with remote control systems (details of service terms and conditions are presented in the information bulletin of <<AEB Online>>/<<AEB
Mobile>>systems).
ATTENTION! Deposit attraction service is not available in "Rossia-1" and "Araratyan" branches of the Bank.

- Based on the volume of the deposit ARMECONOMBANK OJSC grants free plastic cards to its depositors:
a. ArCa classic card in case of any volume
b. In case of deposits in the amount of AMD 300000 or more /equivalent foreign currency/- Master Card standard, Master Card Gold, VISA classic, VISA Gold cards
* The annual percentage yield on monthly paid deposits denominated in AMD, USD, RUR and EUR is calculated based on the procedure stated by the Central Bank of RA with the following formula.

$$
A P Y=(1+r / n)^{n}-1
$$

where

1) APY - annual percentage yield
2) r-annual rate of simple interest
3) $n$ - periodicity of interest capitalization in a year
${ }^{* *}$ The annual percentage yield on deposits in AMD, USD, RUR and EUR (interest paid upon the end of the tenor ) is calculated with the following formula.

where
4) A - initial amount of deposit
5) n - current number of deposit cash flow
6) N - last number of deposit cash flow (including the cash flow on the deposit placement day), which denotes the expiry of term
7) Kn - flow of mandatory payments at the moment of deposit placement, during the process of investment or in case of capitalized interest amount
8) Dn - number of days passed since the deposit placement, including the regular " $n$ " deposit cash flow. If cash flow is invested at the moment of placing deposit, $D_{1}=0$
9) Maximum value of each range is taken into consideration for the term of deposit

## "NOTE: INTERESTS ON YOUR DEPOSIT ARE CALCULATED BASED ON THE NOMINAL INTEREST RATE AND THE ANNUAL PERCENTAGE YIELD SHOWS THE INCOME YOU WOULD REALIZE, IF YOU WOULD HAVE ADDED THE RECEIVED DEPOSIT INTERESTS TO THE DEPOSIT AND RECEIVED THE ACCRUED INTEREST AMOUNTS AT DEFINED PERIODICITY. YOU WILL FIND THE ORDER OF CALCULATING THE ANNUAL PERCENTAGE YIELD ON WWW.AEB.AM".

3. Classic deposit type- term deposit.
4. Accrued interests aren't capitalized and are paid to the depositor once a month, quarterly or at the end of deposit agreement period.
5. Interests are calculated based on the balance of placed deposit amount
6. Interest amounts shall accrue from the day the Deposit is placed with the Bank to the day preceding the date of its repayment to the Depositor.
7. Should the Depositor request repayment of the Deposit or a part thereof before the term of the Deposit expires, instead of the interest amounts set by this Agreement interest on the Deposit or a part thereof is calculated at $0 \%$ annual interest rate, and should the interest amounts be already paid, the Deposit shall be deemed repaid in the amount of interests accrued and paid to the Depositor.
8. Should the deposit or any part thereof be demanded during the prolonged period of the Classic deposit Agreement, the interest envisaged by the Agreement shall be paid for previous period(s) and for the given period interest for the deposit or any part thereof shall be calculated and paid as per the provisions of article 6 .
9. Should the Depositor fail to receive interests accrued on the Deposit no further interest shall accrue thereon.
10. In case the deposit is not demanded on the date the term of the deposit expires (unless other term for the repayment of the deposit has been set by mutual agreement of the Parties) the Deposit repayment term, at the Depositor's choice, is automatically prolonged for the previous period (continually, but no more than 3 times) under the terms existing in the Bank for the given deposit type at the moment of prolongation. Should the bank terminate the given deposit type, the deposit repayment term isn't automatically prolonged and until it is actually demanded the interests on the deposit are calculated at the rate set by the bank for the monetary funds available on acting bank accounts.
11. The Depositor can add additional amounts to the deposit (on which interests set forth by the Agreement shall accrue) in the following cases:
11.1 Should the deposit be placed for 274 days or longer (or be prolonged for the same period), the deposit may be supplemented by the 180th day preceding the expiry of the (prolonged) term of the deposit and only with amounts not to exceed the deposit balance existing at the moment of placement (prolongation).
11.2 No amounts can be added to the Deposit in case the deposit is placement for a term less than 274 days and in case of prolongation the amounts shall be added only on prolongation day and shall not exceed the Deposit balance.
12. The Bank cannot unilaterally decrease the interest specified in the Agreement provided that the deposit is repaid within the term set forth by the Agreement.
13. Should the Deposit not be withdrawn after the expiry of the term of the Agreement, until the deposit is being actually demanded the interests on the deposit will be calculated at the rate set forth by the Bank for the monetary means available on bank accounts.
14. The bank shall provide the depositor (Investor) with a statement on their deposit account at the periodicity specified in the Agreement, which should not exceed a month, through the method of communication specified in the Deposit Agreement or in the Depositor's application with the exception of cases when over the accounting period the account has not been debited or credited, moreover, to provide a statement on the account within 5 days after such request by the depositor at the Tariffs set by the bank.
